

# Editorial Note: Research & Reviews: Journal of Pharmacology and Toxicological Studies

Dr. Muthu MS : [muthubits@rediffmail.com](mailto:muthubits@rediffmail.com)

On behalf of the Board of the Journal of Pharmacology and Toxicological Studies (JPTS) and my co-editors I am proud to introduce you open access peer-reviewed online Journal Pharmacology and Toxicological Studies. The Journal Pharmacology and Toxicological Studies (ISSN: 2322-0120) started publishing in 2013 and has since then published several high quality papers and reviews. The journal is currently indexed in Open J Gate, ResearchBible, OAJI, IJIF, I2OR. I am extremely thankful to the Editorial board, our readers and contributors (authors and reviewers) for making this journal a great success. JPTS was established with a vision of supporting and promoting research in diabetes research across the world. The objective of JPTS is to publish up-to-date, high-quality and original research papers alongside relevant and insightful reviews. As such, the journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging.

It is our pleasure to announce that during year 2019, all issues of volume 7 were published online on time. The journal encourages broader research perspectives of toxicology by adding recent innovations and the latest findings in the thrust areas of pharmacology and toxicology such as in vivo imaging of drug distribution, drug-drug interactions and pharmacotherapeutics. The journal follows strict review process and the manuscript are published after getting approval of two independent reviewers followed by the editor. Globally articles have been accessed by the research scientists and also cited.

Needless to say, any papers that you wish to submit, either individually or collaboratively, are much appreciated and will make a substantial contribution to the early development and success of the journal. Best wishes and thank you in advance for your contribution to the Journal Pharmacology and Toxicological Studies. I would welcome your contributions and suggestions to take JPTS to further heights.
